Hematologic-related malignancy-induced eosinophilic dermatoses (he remained): An old wine in a new bottle
Dr Akash Agarwal

A neglected case of facial chromoblastomycosis caused by rhinocladiaella: A case report
Dr Thanuja Alahakoon

A rare case of cutaneous paecilomyces lilacinus infection with sporotrichoid spread in an immunocompetent patient
Dr Thanuja Alahakoon

Hitting the bull's eye: A case of a 3 year-old Filipino female with chronic bullous disease of childhood evolving to bullous lupus erythematosus
Dr Rouslia Alfaro

A case of a 16 year-old Filipino male with Darier disease
Dr Tanya Patricia Allas

Bimekizumab efficacy in patients with moderate to severe plaque psoriasis during the randomised withdrawal and retreatment phase of be ready, a phase 3 trial
Dr Andrew Blauvelt

Bimekizumab response maintenance up to 1 year in patients with moderate to severe plaque psoriasis: Pooled results from three phase 3 trials
Dr Andrew Blauvelt

Bimekizumab versus adalimumab in plaque psoriasis: Higher efficacy translates into improvements in quality of life in the be sure multicentre, randomised, double-blinded phase 3 trial
Dr Andrew Blauvelt

Clinical and histopathologic characteristics of a case of bullous pemphigoid uniquely associated with dipeptidyl peptidase-4 (dpp-4) inhibitor
Dr Mary Joyce Chiong

Disease severity and patient needs / benefits in genital psoriasis: Patient-reported improvement after 6 ± 1 months of apremilast treatment
Dr Neuza da Silva

The true efficacy of vaccines: A Varicella-Zoster virus case study
Dr Joshua Farrell

The Russian registry for patients with alopecia areata
Aida Gadzhigoroeva

Double whammy: A case report of a 71-year old Filipino female leprosy patient diagnosed with crusted scabies
Dr John Benjamin Gochoco

Crown of jewels-like lesions in an adult with a bullous pemphigoid: A new description
Dr Farah Hadadi

Multiple primary melanomas in a New Zealand population
Dr Ken Hiu-Kan Ip
★ Global Education Award recipient

Eruptive hydroacanthosis simplex
Dr Laxmi Iyengar

Papuloerythroderma of ofuji occurring after intravenous immunoglobulin g (ivig) infusion and subsequently treated with dupilumab
Dr Georgina Juniper

Skin necrosis following sclerotherapy: A classification of pathogenic mechanisms and review of management strategies
Dr Mina Kang

Treatment of facial hypertrophic capillary malformations with tumescent assisted sclerotherapy (tas)
Dr Mina Kang

Clinical currents of acantholytic pemphigus in a hot climate
Dr Sherzod Khonkhodjaev
★ Global Education Award recipient

Bimekizumab short-term and longer-term infection rates in patients with moderate to severe plaque psoriasis: Analysis of pooled data from eight phase 2/3 clinical trials
Prof Mark Lebwohl

Viral infections in patients with plaque psoriasis treated with certolizumab pegol: Pooled three-year data
Prof Mark Lebwohl

Gender bias in language use for online dermatology career recruitment materials
Michelle Lee

Chronic leg ulcers in rothmund-thomson syndrome
Dr Ruby Lee

Localised primary cutaneous histoplasmosis – A case report
Dr Kanchana Mallawaarachchi

Efficacy and safety of guselkumab, a monoclonal antibody specific to the P19-subunit of interleukin-23, through 2 years of a phase 3, randomized, double-blind, placebo-controlled study in biologic-naïve patients with active psoriatic arthritis
Prof Iain B. McInnes

Noninvasive treatment options for elderly patients with skin cancers of the face
Dr Hiroyuki Miura

Solitary and multicentric reticulohistiocytosis: Two patients representing the wide range of severity and outcome
Dr Kavindra Nanayakkara

Clinico-microbiological characteristics of ulcerative skin lesions
Sardor Obidov
★ Global Education Award recipient

Efficacy of certolizumab pegol in psoriasis patients failing to respond to etanercept: Three-year results from the randomised phase 3 compact trial
Dr Andreas Pinter

Malignancy unmasked: A 66-year-old Filipino male with cutaneous angiosarcoma arising from a burn scar
Dr Donnilyn Priela
